SUMMARY

Targeting Full stack Developer roles with an organization of high reputation with a scope of improving knowledge and further growth.

- MERN stack (MongoDB, Express.js, React, Node.js) developer with strong knowledge in building scalable web applications.
- Committed to staying updated with latest industry trends and technologies, continuously enhancing skills and providing innovative solutions
- Demonstrates rapid learning abilities and strong problem-solving skills, effectively adapting to new concepts and overcoming challenges.

EDUCATION

B-tech in Computer Science Engineering (Pursuing)

TKR College of Engineering and Technology

July 2022 - Present

Meerpet, Balapur, Hyderabad 500097

Diploma in Computer Engineering

QQ Govt Polytechnic

CGPA: 7.62

June 2019 - May 2022

Chendulal Baradari, Hyderabad 500064

PROJECTS

Medical Appointment System

Tools: MongoDB, Express.js, Node.js

A seamless platform for scheduling and managing medical appointments efficiently.

Responsibilities:

- Developed the back-end using Express.js, MongoDB, and Node.js.
- Implemented authentication and authorization, ensuring secure access to the application.
- Managed the back-end entirely, handling data storage, retrieval and user management efficiently

Employee Attendance Register

Tools: React, Api Integration, MongoDB, Express.js, Node.js

An accurate and intuitive system for recording employee attendance, offering real-time tracking and effortless management

Responsibilities:

- Developed the front-end using React, creating a responsive user interface.
- Developed the back-end using Express.js, MongoDB, and Node.js.
- Implemented authentication and authorization, ensuring secure access to the application.
- Created separate interface for employees to add and view their attendance, and managers to track employees attendance.

ToDo list Web App

Tools: Html, Css, JavaScript

A simple and organized web app for managing and tracking your daily tasks and to-dos.

Responsibilities:

- Developed the user Interface using Html, Css, and JavaScript.
- Implemented local storage for storing data.

SKILLS

Programming: JavaScript, Python, Java, Html, Css, My

Technologies: React, Next.js, MongoDB, Express.js, Node.js, Bootstrap, Tailwind Css

Soft Skills: Problem Solving, Quick Learning, Adaptability, Attention to Detail.
